

SOHAIL KHAN

Delhi/Lucknow, India | +91-8576932818 | Sohail.khan196in@gmail.com | [LinkedIn](#) | [GitHub](#)

Software Engineer with 1 year of hands-on software development experience across full-stack and freelance projects, including 6 months of full-time industry experience at Saral Tech. Experienced in Next.js, Node.js, REST APIs, PostgreSQL, MongoDB, Linux, Docker, AWS, and CI/CD workflows. Strong focus on building production-oriented applications, debugging software issues, backend development, deployment, and reliable development environments.

EXPERIENCE

Freelance Software Developer

software Development — Devops

2025 – Present

Remote

- Developed and maintained production-oriented full-stack web applications using **Next.js, React, Node.js, TypeScript, REST APIs, and databases**.
- Implemented backend services, authentication flows, database integrations, and API-driven features with emphasis on maintainable architecture and reliable application behavior.
- Worked with **Linux, Bash, Git, Docker, and AWS** across development and deployment workflows, including application configuration and troubleshooting.

Saral Tech — Full-Time Internship

Software engineer Intern

August 2025 – January 2026 (7 Months)

New Delhi, India

- Debugged and resolved frontend issues in a production **Next.js** application, improving application stability and deployment reliability.
- Integrated and validated **RESTful APIs** with backend services, troubleshooting request/response issues and maintaining consistent data flow across application layers.
- Investigated application and deployment issues using logs and monitoring practices, collaborating with engineers to diagnose and resolve production defects.

SKILLS

Languages: C/C++, Python, JavaScript, TypeScript

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST APIs, JWT

Tools: Git, GitHub, Postman, Cloudinary

Databases: PostgreSQL, MongoDB, SQL, Prisma

Cloud & DevOps: AWS, Docker, GitHub Actions

Infrastructure: Linux, Bash, CI/CD

Development: API Integration, Authentication, Debugging

PROJECTS

Production Full-Stack Web Platform | [Next.js, TypeScript, Node.js, PostgreSQL, Docker](#) 2025 – Present

- Designed and developed a production-oriented full-stack web platform with a focus on scalable application structure, responsive user experience, and reliable backend services.
- Built reusable frontend components and backend API services using **Next.js, TypeScript, Node.js, and REST APIs**, with structured data persistence and authentication workflows.
- Containerized application services using **Docker** and worked with **Linux and AWS** deployment environments for application configuration, troubleshooting, and operational reliability.

Production Web Application | [Next.js, REST APIs, JavaScript, Git, Debugging](#)

2025 – 2026

- Contributed to a production web application at **Saral Tech**, working across frontend functionality, API integration, debugging, and application stability.
- Diagnosed and resolved frontend issues in a **Next.js** environment and collaborated with backend engineers to integrate and validate RESTful API workflows.
- Investigated runtime and deployment-related issues using logs and systematic debugging practices, helping maintain reliable application releases.

Company Website Security Extension [↗](#) | [JavaScript, Python, APIs, Firefox Extension](#)

March 2024

- Engineered a browser security extension that validates website URLs against a predefined company list to help users identify and avoid untrusted or irrelevant websites.
- Published the extension on the **Firefox Add-ons platform**, demonstrating end-to-end development from implementation and testing to public distribution.
- [Firefox Extension](#) | [GitHub Repository](#)

EDUCATION

Amity University

Bachelor of Technology (Computer Science and Engineering) — CGPA: 7.8/10.0

Sep 2022 – Sep 2026

Greater Noida, India

CERTIFICATIONS

- CS50 – Harvard University
- Networking Basics – Cisco Networking Academy
- Introduction to Packet Tracer – Cisco Networking Academy
- Open Source Training — Linux Foundation Training
